

## PRODUCT DATA SHEET

**Olympic 090-202-065**

### Olympic 32mm Bi-Metal Holesaw

Manufacturer: Olympic Fixings

GTIN: 5055068633986

Family: Power Tool Accessories

Range: Holesaws

## DESCRIPTION

Olympic Bi-Metal Holesaws are made with M42 HSS cutting edge consisting of 8% cobalt. The body is manufactured from premium quality steel with a 4/6 TPI tooth pattern with a 38mm cutting depth. They are supplied individually in hanging blister packs

- Suitable for use with sheet metal, cast iron, aluminium, wood, plywood, plastics and pipe
- Ensure the recommended speed is used for different diameters of holesaw
- Use the correct cutting fluid when making holes in metal, other than cast iron which should be cut dry
- Use correct level of pressure when hole cutting. Too much or too little can damage cutting edges
- Pilot drills should be correctly assembled to ensure they do not extend beyond cutting teeth further than the material thickness being cut

## TECHNICAL SPECIFICATION

**ETIM Class: Hole saw (EC000415)**

### Primary Features

|                    |    |               |    |
|--------------------|----|---------------|----|
| Cutting depth (mm) | 38 | Diameter (mm) | 32 |
|--------------------|----|---------------|----|
